

Gaming Products

- Backcoated grades ideal for pre-printing fine detail and extra resistance.
- All products have high definition graphics or bar code capability.

Considerations	Grade Choice
<i>For applications where the maximum image life is required—even in high temperature environments</i>	HeatSafe®
<i>For use where long image life is needed but the paper is not subjected to heat extremes</i>	Résiste®
<i>Specific coinless slot applications requiring high definition image and image life</i>	Royale
<i>For applications where moderate resistance to handling is required</i>	Alpha® Plus
<i>For general purpose applications where extended image life is not a requirement</i>	Alpha®

Gaming Products

	Caliper (µm)	Basis Weight (17x22-500 lbs. g/m ²)	Topcoated	Printable Backcoat	Image Resistance	Heat Resistance	Bar Code	Applications
